

# RECA PRODUCT GUIDE FOR WOODWORK INDUSTRY

## RECA WOOD SCREWS

### RECA RAPID® Timber Wood Screw

- High quality wood screw, ideal for use in structural woodwork, timber panel construction and interior construction. Features a robust TX drive, for optimum power transfer, under head milling pockets to prevent surface damage from splintering and a Yell WIN 500+ surface coating which offers up to ten-times greater corrosion protection in comparison to standard zinc-plated coatings on the market.

- Art. No.: 0160 3
- Wafer head.
  - Innovative HiLo thread.

Art. No.: 0160 0/1/2

- Countersunk head.
- Under head milling pockets.
- Innovative HiLo thread (from 30mm)

Art. No.: 0190 480

- Cylinder head.
- Single thread.

### RECA Hex Head Timber Screw

Art. No.: 0190 001\*

- Countersunk hex head with a fixed washer and 25° sharp point, for easier penetration into all wood types. The 50° deep single thread, provides secure fixing with high pull out resistance.
- Patented lubrication, to increase insertion speed, and olive green corrosion resistant plating for external applications. Ideal for use in decking, stairs, fencing, roofing and landscaping.

### Pozi Drive, Countersunk Decking Screw

Art. No.: 0217 997 0\*

- An economic but highly effective softwood decking screw.
- Made from carbon steel and plated to exterior quality (tested up to 500 hours in a salt spray cabinet) with ribs under head for improved countersinking.

### Pozi Drive, Wood Screw

Art. No.: 0198 9\*

- A reduced diameter, parallel shank with a sharp point gives an easy start, straight drive and prevents splitting of timber plus the twin start thread form gives 40% further penetration with each turn.
- Bright zinc plated through hardened steel for a strong head and shank that resists deformation and corrosion.

### Pozi Drive, Chipboard Screw

Art. No.: 0186 7\*

- Single thread hardened chipboard screw with a coarse thread which gives excellent holding power in chipboard and particle boards. Yellow Zinc Plating gives greater rust protection and the yellow finish helps blend with normal woods.

## RECA CHIPBOARD SCREWS

### Pozi Head, Yellow Passivated

Art. No.: 0186

- Single thread screw, suitable for all types of hard & softwoods, MDF, laminated and waterproof chipboards, plywood and other wood-based materials.
- Full and part thread available

### Pozi Head, A2L Zinc Plated Yellow

Art. No.: 0186 9

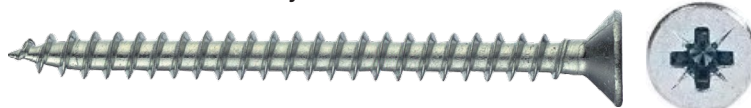

- All-round chipboard screw with regular single thread which allows easy and fast driving of the screw with no chipping of the surface. The improved screw tip offers better fixing due to a high screw-out torque and prevents the wood from splitting.
- Under-head milling pockets (from 5.0 x 50), provide optimal countersinking into the material, are smooth and more gentle on the material and the end mill cutter (from 5.0 x 70) helps reduce screwing resistance and clears drilling debris from the material.
- Ideal for chipboard, soft woods, wood-based and medium density fibreboard (MDF)

### Pozi Head, A2K Zinc Plated

Art. No.: 0198 9\* / 0198 61\*

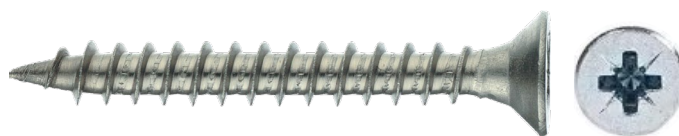

- As above, available in full or part thread.

### Pozi Head, A2 Stainless Steel

Art. No.: 0182\*

- Single thread screw, precision manufactured to ensure a high quality.

### Torx Head, Yellow Passivated

Art. No.: 0154

- Yellow chromate single thread screw, suitable for all types of hard & softwoods, MDF, laminated and waterproof chipboards, plywood and other wood based materials.
- The main advantage of a Torx head over a standard Pozi head is, as the name suggests, it allows the user to torque the screw more than it would normally be possible. Also the design of the Torx means that the material they are being applied to is less likely to be damaged from the force that is applied.
- A general note - it is said the Torx bits themselves last up to 5 times longer since it is difficult to damage the head via stripping!

### Hex-Head Wood Screws, Steel BZP

Art. No.: 0192 / 0193

- For tight wood to wood joints - Hexagon Heads gives better torque when tightening.

### Steel, Bright Zinc Plated Roofing Bolts and Nuts

Art. No.: 0231

- For fixing softer materials (wood, plastic etc.) to metal framing etc.
- The smooth, low profile head allows full use of the width in the interior of a commercial vehicle without risk of damage to the transported goods.

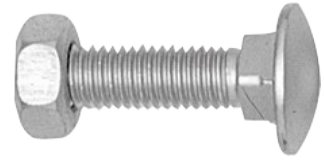

## RECA FIXINGS

### Steel, Bright Zinc Plated Coach Bolts DIN603

Art. No.: 0223

- For connection of timber and metal components. The square shank holds firm in the timber.

### Studding (Threaded Bar) BZP DIN 376

Art. No.: 0954 / 0958 / 0959

### Hexagon Nuts

Art. No.: 0317 / 032\*

- Full nut with metric coarse thread, available in numerous finishes.

### Nyloc Nuts

Art. No.: 0368 / 0391

- Gives a tight, vibration-proof grip between bolt & nut without damage to the thread.

### Washers

Art. No.: 04\*

- Extensive range of washes, including Penny, Square, flat and spring.

## RECA ABRASIVES

### Mirka Abranet

- A multifunctional material, which consists of a dense network of polyamide fabric threads, onto which abrasive grit is bonded. Developed for sanding fillers, primers, lacquers, composite materials and a wide range of other materials, the open weave net structure helps to provide phenomenal dust extraction for industrial application use. Designed for dry sanding by hand or machine.

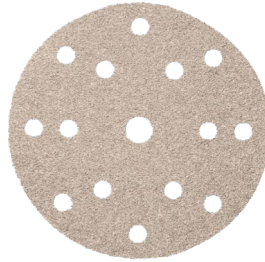

### 125mm Sanding Strips/Discs

Art. No.: 0672 99\*

### 150mm Abranet Ace

Art. No.: 0665 994\*

### 150mm Basecut

Art. No.: 0672 997 0\*

### 150mm Abralon

Art. No.: 0672 997 1\*

## Abrasives Rolls/Belts

### Hermes Cloth Sanding Belts

Art. No.: 0673 81\*

- Aluminium Oxide belts ensure long life, great strength and suit the most popular industrial belt sanders.

### Silicone Carbide Paper Rolls

Art. No.: 0673 215\*

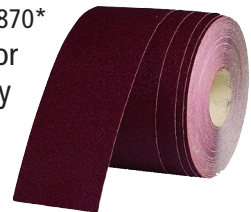

- Sharp abrasive, flexible paper for finishing wood, paint, lacquer and plastic.

### Aluminium Oxide Paper Roll

Art. No.: 0673 870\*

- Suitable for heavy duty sanding of wood, plastics & fillers by hand or orbital sander.

## RECA SCREWDRIVER BITS

### RECA Power Bits

- Confusion between Pozi and Phillips is very common and can cause damage to the bits or screw heads. The RECA colour system has clear colours on each bit and all packaging for RECA screws.
- RECA POWER bits make every job quick and accurate. The DIN and ISO numbers are exact to that of the screw head which guarantees precision and an optimum fit.
- Available as power bits assortments and individually. RECA Impact Bits and universal bit holders also available.

Type	Size	Colour
Phillips	PH 1	Yellow
	PH 2	White
	PH 3	Red
	PH 4	Violet
Pozidrive	PZ 1	Blue
	PZ 2	Black
	PZ 3	Green
	PZ 4	Orange
Torx	TX 10	Blue
	TX 15	Yellow
	TX 20	White
	TX 25	Black
	TX 30	Red
	TX 40	Green

### RECA Handle

Art. No.: 0605 010 002

- Well suited as a screwdriver handle, the handle will hold 1/4" standard bits and also sabre saw blades.

## RECA SCREWDRIVERS

### RECA Multi Screwdriver

Art. No.: 0701 9\*

- A versatile tool with 160mm reversible blades which are manufactured from chrome vanadium molybdenum steel. High quality, strong and robust, the blades can also be used as extra long screwdriver bits on cordless drills. The 1/4" drive system enables standard screwdriver bits to be used in the handle also.
- The two component handle has a soft grip outer material which helps to provide extra torque and changes easily between straight and T Handle, without having to remove the blade.

### RECA Ultra Screwdriver

Art. No.: 0701 50\*

- The blades are manufactured from chrome molydenum vanadium steel with a black tip on the blade for precision fit. The design of the handle fits perfectly in your hand, meaning less strain and work fatigue plus 30% more power/torque, compared with traditional grips.
- The handle features anti-roll protection while the hexagon bolsters on the shaft can be used to apply extra pressure and torque with a spanner.

## **RECA DRILL BITS**

- RECA offer a full range of HSS drill bits, all are ground flute and manufactured from 100% high quality blanks. A point angle of 118° ensures pinpoint accuracy on many surfaces and a diameter tolerance of h8 guarantees quality and precision.

### **RECA HSS Twist Drills**

Art. No.: 0624

### **RECA ULTRA HSS Twist Drill with Tricon shaft**

Art. No.: 0617 000\*

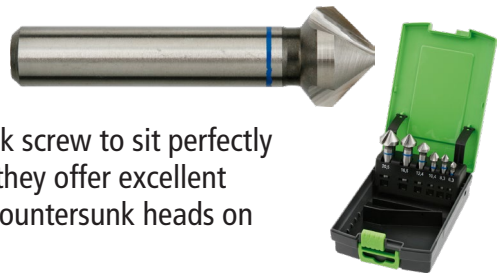

- 118° cutting angle.
- Oxide treated drill chamfer to reduce heat load on the drill.
- Available in Ø 2.0 - 13mm and set of 34pcs **Art. No.: 0617 004 913**

### **RECA HSS Countersinks**

Art. No.: 0692 314

- Countersinks are used in a drilling machine to produce a perfect 'v' shape in the base material. This allows a countersunk screw to sit perfectly flush to the surface. Made from high quality High Speed Steel they offer excellent precision and longevity and the 90° angle suits most popular countersunk heads on wood and machine screws.

### **RECA HSS Countersink 1/4 Bit Holder**

Art. No.: 0692 314

- 1/4" bit mount for fast tool change, manufactured from high speed steel. For countersinking, chamfering and deburring in steel, non-ferrous metals, plastics and wood - Optimal results with a low cutting speed

### **RECA TT Countersink drill bit**

Art. No.: 0217 099 100

- Equipped with a 4.0 mm diameter drill bit, a 9.4 mm diameter countersink and a depth stop, this piece enables precise pre-drilling and countersinking in one step with a clear view of the working surface.
- The drill bit and depth stop can be continuously adjusted.
- The supplied drill bit (DIN 338, 4.0 mm) can be changed without any great effort. No special drill bit is required.
- No burn marks appear in the wood thanks to the movable depth stop.

### **Formwork And Installation Drill Bit**

Art. No.: 0631\*

- For formwork, planks, floorboards, beams, gypsum and light building boards, sheet metal, non-ferrous profiles with a round shaft and right-hand cutting.

## RECA DRILL BITS

### RECA Bi-metal Holesaws

Art. No.: 0609 000\*

Constructed of hardened heat and abrasion resisting high speed steel teeth with a tough body. This gives them exceptional strength, durability and shatter resistance for user safety. Universal application with many materials. e.g. steel, stainless steel, cast metal, copper, bronze, aluminium, plastic, wood, etc.

### RECA Holesaw Arbors

Art. No.: 0609 10\*

- A1 Arbor: For holesaws 14-30mm (9/16" – 1 3/16"), 9.5mm hex shank.
- A2 Arbor: For holesaws 32-152 (1 1/4" – 6"), 11mm hex shank

A1 Arbor

A2 Arbor

### Wood Beaver Drill Bit

Art. No.: 0616 160\*

- Ideal for drilling into most hard or soft wood, the quad cutting head design sets it apart from any other wood drill bits - a smooth and balanced cutting action

### Combination Auger Bits

Art. No.: 0616 236\*

Art. No.: 0616 205\* (with SDS Plus Fitting)

- High quality drills for wood, equally effective in hard and soft wood with good chip clearance, even in wet wood or deep drill holes.

### Flat Wood Bits

Art. No.: 0616 136\*

- Versatile wood boring bits for use with electric drills which bore easily and cleanly in all types of timber such as hardwood, softwood, cross grain or end grain.

### RECA Professional Carpenters Pencil

Art. No.: 0695 900 215

- For marking wood, concrete, cardboard and paper. Pack of 12

### RECA Permanent Marker Pen

Art. No.: 0695 900 3

- For permanently labelling and marking surfaces. Quick drying and permanently waterproof.

## RECA SAW BLADES

- A comprehensive range of jigsaw, sabre, multi tool and circular saw blades.

### RECA Wood L and XL Jigsaw Blade

Art. No.: 0604 103 00\*

- Blade manufactured from chrome vanadium steel.
- For very quick and straight cuts for all types of wood.

### RECA Combo 5/8

Art. No.: 0605 117 001

- Extra robust sabre saw blade for straight cuts in all types of wood.
- Suitable for all wood types with low quantity of metal debris/nails.

### BOSCH All 65 APB Wood and Metal

Art. No.: 3696 596 169

- Ideal for cutting wood with nails, cutting a door frame at floor level or plunge cuts in laminated panels.

### BOSCH ACZ 100 BB Wood and Metal

Art. No.: 3696 492 379

- Designed for cutting a door frame to length on the floor, cutting out laminate/parquet or cutting smaller mouldings to length.

### Cutting Sets

Art. No.: 0616 500\*

- Two starter sets containing a selection of the most widely used cutters for decorative woodworking, for multiple wood types, within a hard plastic carry case.

### Craftpro Saw Blades

Art. No.: 2617\*

- Manufactured from high grade alloy steel plate, precision ground to maintain flatness with TCT tips to allow cutting of abrasive materials.

### Bahco 300 Prizecut Toolbox Saw

Art. No.: 0695 600 155

- General purpose saw with fine teeth for smooth sawing in a wide variety of materials and a comfortable handle.

### Bahco 244 Handsaw

Art. No.: 0695 600 156

- Ideal for cutting medium/thick materials, particularly effective for cross and rip cutting in chipboard, hardboard and hardwood.

## RECA Master Hacksaw Frame

Art. No.: 0603 100 301

- Heavy duty tubular frame for maximum rigidity with 'D' handle for a firm grip.
- Quick and easy blade tensioner for fast replacement of blades.

## RECA Ultra Safety Knife

Art. No.: 0703 600 140

- Automatic blade retraction when contact with the material is lost, even if the feed mechanism is still held in the forward position.
- Ergonomic design and easy blade change, with storage for replacement blades in the housing.

## Hand Planes

Art. No.: 0695 500

- Manufactured to uncompromisingly high standards, hand planes are suitable for both hard and soft woods. Supplied with a tungsten vanadium cutter blade and screw adjustment for depth of cut and lever for lateral adjustment.

## Sash Clamps

Art. No.: 0695 750 600

- These cut heavy duty clamps have a bar section of 32 x 6 (1 -1/4 x 1/4). The slide is secured by a solid steel pin passing through one of the locating holes along the steel bar.

## One Handed Clamp

Art. No.: 0695 700

- Clamp and fix in place quickly with just one hand.
- Rail, fixed arm and pressure plate made in one piece from cold-drawn profile steel.

## Solo Clamps

Art. No.: 0695 700 0\*

- Quick one-handed fastening and release with up to 170 kg clamping force, 150 (6") capacity.

## RECA Rapid Tacker R23 (Type 13)

Art. No.: 0580 013 023

- Lightweight, easy-to-use hand-held tacker made of metal, ideal for demanding professional applications and precision work. For fine wire staples (Type 13) 4-8 in length.

## RECA Tape Measure

Art. No.: 0705 20\*

- Nylon coated steel blade in an ABS plastic case in RECA green.
- EG accuracy class II.

## RECA Folding Wooden Rule

Art. No.: 0705 100 100

- 2m folding wooden rule with 10 sections joined by high-quality hinges. With metric markings to EC precision Class III with 235 intervals indicated.

## RECA Torpedo 360

Art. No.: 0705 400 030

This functional and robust spirit level has an extra-strong rare-earth magnet and a rotatable angle level that can be adjusted by 360°. Length: 250mm

## RECA Basic Spirit Level

Art. No.: 0705 402

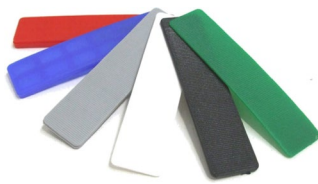

Featuring shatter-proof acrylic glass blocks, that are easy to clean and filled with a fluorescent level liquid which is resistant to UV radiation.

## Packers

Art. No.: 0820 998 200

Used to ensure the correct weight distribution of glazed units, and increase security around fixing points during frame fitting.

## Wooden Biscuits

Art. No.: 0618 604

An oval shaped biscuit to be used in conjunction with a biscuit jointer

## Horse Shoe Shims

Art. No.: 0820 999 200

Used for easy and quick levelling of battens, dry lining systems, stud work, door and window frames.

## RECA Silicones & Adhesives

A large range of chemicals are available including:

- PVA adhesive
- Cyanoacrylate adhesive
- Methyl methacrylate adhesive
- Wood filler
- Wood glue
- Decorating Caulk
- Grab adhesive
- PU Foam
- PU Liquid adhesive
- Foam adhesive

## RECA PROTECTIVE EQUIPMENT

A large range of PPE is available including:

- Cut level gloves
- Disposable gloves
- Hearing protection
- Head protection
- Eye protection
- Face protection
- Hi-Vis clothing
- Protective clothing
- Waterproof clothing
- Disposable clothing
- Safety footwear
- Respiratory protection
- First Aid kits
- First Aid accessories

This brochure is just a taster of the full product range from RECA-UK...

### Who are RECA-UK?

RECA-UK Ltd is part of the European RECA Group, who, with over €700 million turnover, offer massive resources to help give the customer the best possible service. A UK sales force of over 80 sales professionals offers nationwide coverage and technical advice on the 5,500+ lines that are available from our distribution facility in West Bromwich, we offer a next day delivery service as standard.

With over 9,500 active customers it is easy to see that our high quality consumable products make sense to all professionals in every trade. Every RECA product offers innovation and outstanding performance - RECA branded products are designed and specified to German standards so that quality and reliability are guaranteed. RECA products are exclusively sold direct to professionals; they are not available through retail or trade distribution.

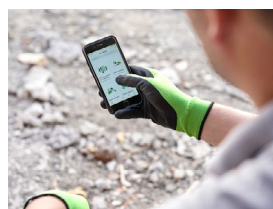

Once you have opened an account with RECA you can order from us in several ways:

**Via your local area representative**

**our Telesales team**

**by telephone or our e-shop or our trade counter**

**for next working day delivery\***

\*next day delivery is not guaranteed
