RECA Service Solutions

Chaotic storage is a thing of the past

We support you in keeping your costs under control while also ensuring continuous item availability. We avoid complicated ordering procedures which cost you time and cause you stress. Short supply paths, a comprehensive overview of goods withdrawals and a well-structured material warehouse according to your requirements – that is our goal.

Sounds almost too good to be true? This is exactly what we strive for with our solutions!

RECA Service Solutions offers you:

Time savings By reducing the burden of procurement processes, you can concentrate on your core business.

Order clarity Your employees will be under less pressure as every item has its place in the warehouse.

Lower Capital Commitment You avoid double storage and have optimal stock at all times.

Flexibility You determine which products we manage in your company.

Item Availability The items you specify are always in stock.

Your Image Build an excellent image within your company and for your customers.

Our mobile demonstration vehicle will be available from February 2024!
Book your visit now!

Automation is the way forward

Our iSTORAGE machines ensure optimal storage and provision, reduce errors and provide automatic material supply. We work with you to determine which of our range best fits your requirements.

RECA iSTORAGE Flap Dispenser

A secure storage for your tools and consumables, with regulated access for your employees.

Ask for a demonstration!

- Employees have personalised access to the machine.
- The employee removes the item(s) and enters the quantity of goods removed into the touch screen interface.
- When the product(s) reaches a pre-agreed minimum, an order is automatically transmitted to RECA-UK for replenishment.
- Your RECA-UK representative can replenish your machine.

Overall dimensions including antenna (h x w x d): 2120 x 600 x 560mm

Other Features

- Each user can be allocated a different access level.
- Reports of the activity can be automatically sent to a designated user within whatever time frame you require.
- Can be combined with additional satellite units.
- Each dispenser is tailored to your unique requirements.
- Technical support and ongoing servicing will be provided by RECA-UK.

- iSTORAGE is provided at a monthly rental fee - Request your quote from your Sales Representative

RECA iSTORAGE Weight Based Cabinet

A secure, easy to use solution with automated stock level updates.

Ask for a demonstration!

- Employees access the machine and remove the products they require.
- The sensitive weigh cells detect what has been removed and updates the stock level accordingly.
- When the product(s) reaches a pre-agreed minimum, an order is automatically transmitted to RECA-UK for replenishment.

Overall dimensions including antenna (h x w x d): 2165 x 1200 x 650mm

Other Features

- Each user can be allocated a different access level.
- Reports of activity can be automatically sent to a designated user.
- Can be combined with additional satellite units for maximum efficiency.
- Each machine is tailored to your unique requirements, including shelf sizes to suit the type of products you wish to vend.
- Technical support and ongoing servicing will be provided by RECA-UK.
